T	Key	Summary	Assignee	Test Count	Tests association with a Test Set	Test Set Status
Test Set	EBANK-36	Security and compliance	Casey Ford	7	[EBANK-24] Verify required SSL security compliance [EBANK-25] Database consistency test [EBANK-2] Test the behavior of required fields for a card-not-present payment transaction [EBANK-8] Payment transaction submitted multiple times [EBANK-26] HTTP protocol used to store cookies [EBANK-3] Enter different data types [EBANK-22] Desktop Operating System compatibility test	PASS: 1 (14.29%), FAIL: 4 (57.14%), ABORTED: 0 (0%), EXECUTING: 1 (14.29%), TODO: 1 (14.29%)
Test Set	EBANK-37	App speed and usability	Robert Mongose	9	[EBANK-23] Response time test at different connection speeds [EBANK-20] Mobile browser compatibility test [EBANK-17] Keyboard switching is automatic for number type fields on mobile [EBANK-16] Irrelevant menu items don't appear [EBANK-15] All documented shortcut keys can be used [EBANK-12] Type ahead feature is default for form filling [EBANK-9] Language is automatically selected based on device location [EBANK-5] Behavior of form instructions [EBANK-2] Test the behavior of required fields for a card-not-present payment transaction	PASS: 0 (0%), FAIL: 1 (11.11%), ABORTED: 0 (0%), EXECUTING: 0 (0%), TODO: 8 (88.89%)
Test Set	EBANK-38	API Testing for Payment Service Directive	Owen Klyed	3	[EBANK-14] Insufficient funds notifications are straightforward [EBANK-41] New third-party request can be registered on Bank's API platform [EBANK-42] TPP list can be accessed by Bank employees	PASS: 0 (0%), FAIL: 1 (33.33%), ABORTED: 1 (33.33%), EXECUTING: 0 (0%), TODO: 1 (33.33%)
Test Set	EBANK-39	Immediate payment transactions	Zoe Barnes	4	[EBANK-40] Payment verifications performed for account balance [EBANK-1] Payment request is authenticated securely [EBANK-57] Transfer push notifications are sent [EBANK-2] Test the behavior of required fields for a card-not-present payment transaction	PASS: 0 (0%), FAIL: 1 (25%), ABORTED: 0 (0%), EXECUTING: 2 (50%), TODO: 1 (25%)
Test Set	EBANK-59	Banking workflows and business requirements	Bob Mitchell	3	[EBANK-1] Payment request is authenticated securely [EBANK-64] Scanned account holder ID matches selfie [EBANK-65] Scanned account holder ID doesn't match selfie	PASS: 0 (0%), FAIL: 0 (0%), ABORTED: 0 (0%), EXECUTING: 1 (33.33%), TODO: 2 (66.67%)
Test Set	EBANK-61	Account holders data integrity	Owen Klyed	3	[EBANK-25] Database consistency test [EBANK-64] Scanned account holder ID matches selfie [EBANK-65] Scanned account holder ID doesn't match selfie	PASS: 1 (33.33%), FAIL: 0 (0%), ABORTED: 0 (0%), EXECUTING: 0 (0%), TODO: 2 (66.67%)
Test Set	EBANK-62	User Experience and Interface	Casey Ford	5	[EBANK-18] Loading website with various connections quality [EBANK-10] Abbreviations are consistently used [EBANK-7] Financial goal progress bar visibility on different screens [EBANK-11] Confirmations are prompted when leaving forms without saving [EBANK-69] Account holder can withdraw cash	PASS: 2 (40%), FAIL: 1 (20%), ABORTED: 1 (20%), EXECUTING: 1 (20%), TODO: 0 (0%)
Test Set	EBANK-63	Edge cases and overload scenarios	Bob Mitchell	5	[EBANK-18] Loading website with various connections quality [EBANK-13] Table scrolling edge cases are handled [EBANK-31] Onboarding instructions depend on customer account type (Standard) [EBANK-6] Onboarding instructions depend on customer account type (Premium) [EBANK-4] Use various text field widths	PASS: 5 (100%), FAIL: 0 (0%), ABORTED: 0 (0%), EXECUTING: 0 (0%), TODO: 0 (0%)
Test Set	EBANK-73	Internal security audit	Casey Ford	8	[EBANK-24] Verify required SSL security compliance [EBANK-25] Database consistency test [EBANK-2] Test the behavior of required fields for a card-not-present payment transaction [EBANK-8] Payment transaction submitted multiple times [EBANK-26] HTTP protocol used to store cookies [EBANK-3] Enter different data types [EBANK-22] Desktop Operating System compatibility test [EBANK-20] Mobile browser compatibility test	PASS: 1 (12.5%), FAIL: 4 (50%), ABORTED: 0 (0%), EXECUTING: 1 (12.5%), TODO: 2 (25%)
Test Set	EBANK-74	Secondary account holders data integrity	Owen Klyed	4	[EBANK-25] Database consistency test [EBANK-64] Scanned account holder ID matches selfie [EBANK-65] Scanned account holder ID doesn't match selfie [EBANK-1] Payment request is authenticated securely	PASS: 1 (25%), FAIL: 0 (0%), ABORTED: 0 (0%), EXECUTING: 1 (25%), TODO: 2 (50%)
